

WHAT CAN THE ECMC BRING?

Jildau Bouwman/Niels Chavannes

TNO

THE 2022
TECH-MED
EVENT

NELL AND THE E-CMC: NIELS CHAVANNES

THIS IS MR SMITH

I just want to enjoy life and do not want to go to the doctor too often

He **has** Type 2 diabetes and needs to be checked for comorbidities

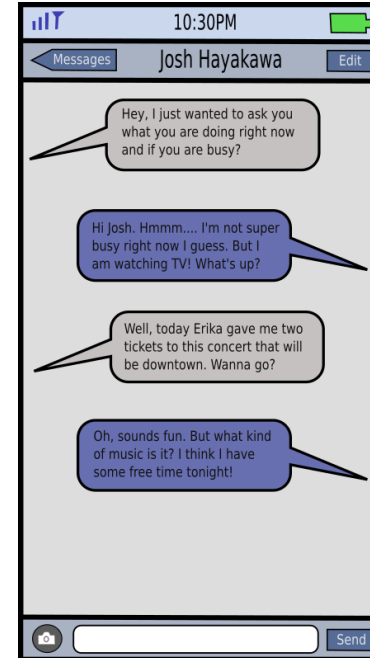

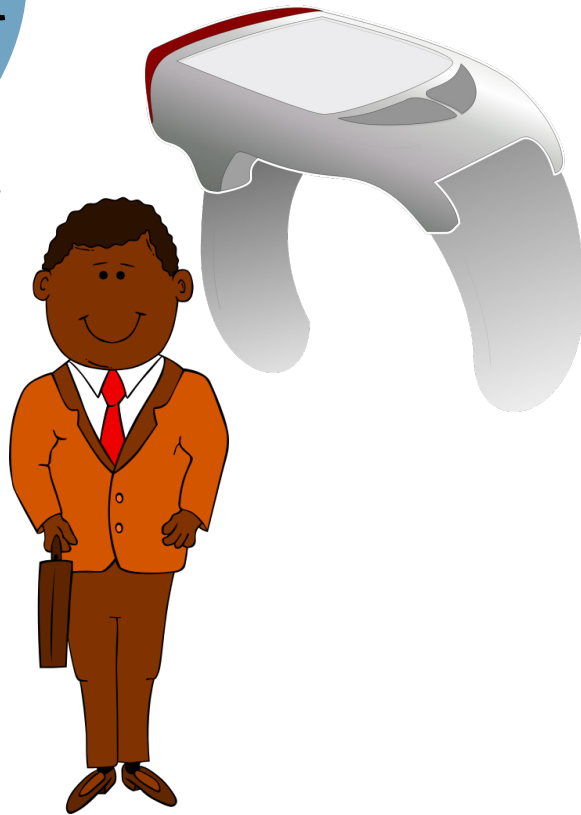

AND THIS IS DOCTOR ADAMS, MR SMITH'S GP

But how can I keep track of Mr Smith's health?

AND THESE ARE A BUSINESS MAN AND A SCIENTIST

I have the best solution!

I have a great idea!

THE QUESTIONS OF MRS ADAMS

Can I trust these systems?
Where can I see Mr Smith's data?
Do they help my patient?

THE QUESTIONS OF MR SMITH

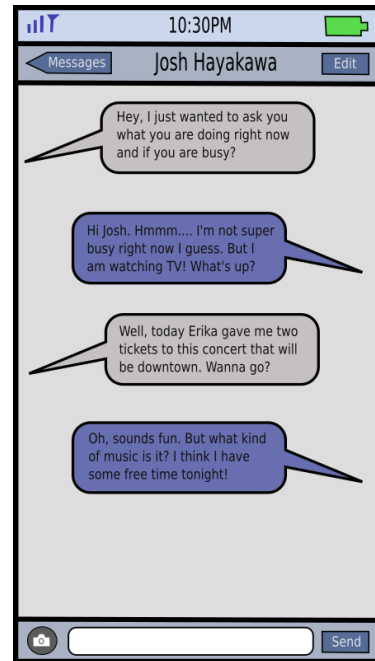

What do they do with
my data?
Does this really help?
Is it nice to wear?

THE QUESTIONS OF THE COMPANY

Do we adhere to all legislation?
How can I prove that it helps?
How do I get the data in this HIS?

THE QUESTIONS OF THE SCIENTISTS

Where can I test this hypothesis?
How can I get this idea to the market?

› THIS IS WHY WE NEED THE ECMC

- › **AMBITION** by combining government, research institutes, health care, developers and patients we aim to improve the RPM innovation. **Quicker and cheaper access to the market**
- › **GOALS** (amongst others)
 - Access for companies to digital solution, living labs and facilities to test their innovations
 - Support in development of new technologies of monitoring devices
 - Development of a health data platform for data visiting of all stakeholders
 - Support in software development for collection, analysis and advise systems
 - Consultancy for medical device certification
